MRS. GENTA

RESPONSIBILITY

Responsibility has become a very pertinent word to all of us. Our responsibility covers many areas of life. Our sense of responsibility is the heart of a crucial area. Without it we cannot take responsibility in any direction, with it, the possibilities for accomplishment are many.

Responsibility means being completely honest in any given situation involving others, as well as ourselves. It means lending a helping hand, it means putting out a little extra effort when we know the going is rough. It means admitting we are wrong, when we know we have made a mistake. It means, developing all our assets to their utmost.

Responsibility brings us much in the inner satisfaction in accomplishment in knowing we are doing our best.

Responsibility is living life at its fullest. It is peace of mind. It is abundant living. When we accept responsibility we each share a cup that runneth over---for "we are known by what we do."

Sincerely,

Nau M. Genta

Director

1965 Girls State

Citizens:

It is my hope that you gained much from the 1965 Sessions of the American Legion Auxiliary Girls State. If you returned home even a bit more dedicated an American, we will have felt our time and efforts well spent.

We depend much on you to further this program by sharing your weeks experience with family and friends as you return to your home.

May God bestow rich blessings on each of you throughout all your lives.

Lovingly,

Vivian Milne

President,
American Legion Auxiliary
Department of New Mexico
